Geocaching Scavenger Hunt

begins at 12:00 p.m.

Sergeant Bluff Community Center

Teams can consist of 2-10 members. Teams will need a pen or pencil and paper, a cellular devise to find the latitudinal and longitudinal coordinates of 7 caches and a bag to carry cache items. At the location you will find a riddle or puzzle to open the combination of the box. Collect one item from the cache and once you've collected all 7 return to the SBCC. The first three teams to complete the mission will win prizes. The coordinates will get you close to the location of the boxes you will need to search the area to find the box. Teams can get to the points by walking, running, biking or vehicle.
