

**CITY OF SERGEANT BLUFF
STORM WATER POLLUTION PREVENTION – REPORT FORM**

The City of Sergeant bluff encourages the protection of our waterways. To protect the quality of our rivers, lakes, ponds and streams, we must all take action to prevent contamination from entering into the watershed. Anything that washes off our yards and streets is capable of finding its way into a storm drain, which provides a direct connection to waterways. In addition, any dumping of litter, yard waste or chemicals into storm drains, waterways or on the banks of waterways is illegal. By reporting storm water erosion and runoff problems, you can help prevent pollution from entering our watershed.

You may phone in your concern to the Storm Water Coordinator @ 712-203-0208

By Email: Dan Hospers – dan@cityofsergeantbluff.com

By Mail: PO Box 703, Sergeant Bluff, IA 51054

In Person: Sergeant Bluff City Hall, 401 4th Street, Sergeant Bluff, IA 51054
